

0472 Series – Premium Phenolic Primer

This product is a premium, fast dry, modified alkyd, phenolic primer used for quick recoating or production line areas. This coating may be used as a barrier coat over alkyds to permit vinyls, epoxies, urethanes, or other coatings containing strong solvents to be applied.

Particularly suited for:

- Production line application
- Field application
- Industrial machinery
- OEM equipment
- Oil and gas tanks
- And more

*At 75° F

Features & Benefits:

- Quick-drying
- Low-gloss
- Low VOC
- Rust Inhibitive (2653 Primer)
- Ideal for protection of various steel substrates
- For use under a wide variety of topcoats (i.e. vinyls, epoxies, acrylic alkyds, and urethanes)

Dry Time:	20 min. to touch, 40 min. to recoat*
Colors	Gray, or Red Oxide
Gloss:	Flat
Coverage Rate	402 ft ² @ suggested thickness
Volume Solids	45.07%
